

Name _____ Class _____ Date _____

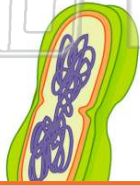

1 Which is a **structure** that is **not** found in a bacterial cell?

- A ribosome
- B golgi bodies
- C cell wall
- D cell membrane

3 What process do **bacterial cells** use to **reproduce asexually**?

- A conjugation
- B binary fission
- C sexual reproduction
- D respiration

2 Which **kingdom of bacteria** lives in **extreme conditions**?

- A Eubacteria
- B Archaeobacteria
- C Monerans
- D Fungi

4 What process do **bacterial cells** use to **reproduce sexually**?

- A conjugation
- B binary fission
- C asexual reproduction
- D respiration

7

- C pseudopod
- D feet

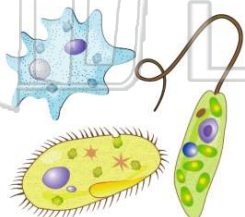

- D animal-like

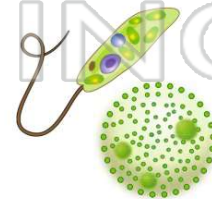

9 Which is **not** a category of **protists**?

- A Plant-like
- B Animal-like
- C Fungus-like
- D Bacteria-like

10 **Plant-like protists** are all _____ ?

- A heterotrophs
- B autotrophs
- C both
- D neither

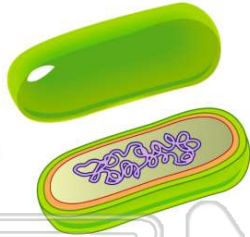

ANSWER KEY

Which is a **structure** that is **not** found in a bacterial cell?

- A ribosome
- B golgi bodies
- C cell wall
- D cell membrane

(b)

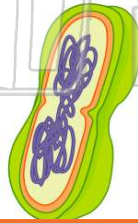

Which **kingdom of bacteria** lives in **extreme conditions**?

- A Eubacteria
- B Archaeobacteria
- C Monerans
- D Fungi

(b)

What process do **bacterial cells** use to **reproduce asexually**?

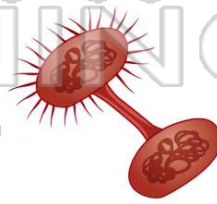

- A conjugation
- B binary fission
- C sexual reproduction
- D respiration

(b)

What process do **bacterial cells** use to **reproduce sexually**?

- A conjugation
- B binary fission
- C asexual reproduction
- D respiration

(a)

Which is **not** a category of **protists**?

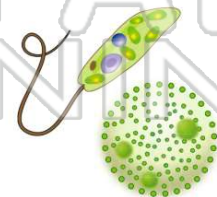

- A Plant-like
- B Animal-like
- C Fungus-like
- D Bacteria-like

(d)

Plant-like **protists** are all _____?

- A heterotrophs
- B autotrophs
- C both
- D neither

(b)
