

Name _____ Class _____ Date _____

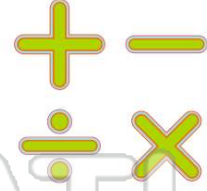

1 Putting numbers together to find the **sum** is called _____.

- A addition
- B subtraction
- C division
- D fractions

$$\begin{array}{r} 24 \\ 17 \\ 10 \\ 10 \\ + \\ 17 \\ 24 \\ \hline \end{array}$$

2 The **answer** when you add numbers is called the _____.

- A sun
- B sum
- C some
- D s'more

3 This is a(n) _____ family.

$$\begin{array}{l} 4 + 2 = 6 \\ 2 + 4 = 6 \\ 6 - 2 = 4 \\ 6 - 4 = 2 \end{array}$$

- A funny
- B fact

4 Seven _____ three equals **ten**.

- A minus
- B minutes
- C plus
- D plans

7 _____
B summer
C difference
D define

$$7 - 3 = 4$$

8 _____
B and
C mines
D minus

9 Five plus five minus one _____
_____ nine.

- A asks
- B equator
- C equals
- D equips

10 We use the signs $<$, $>$ and $=$ to _____ numbers.

- A compute
- B guard
- C compare
- D equal

ANSWER KEY

Putting numbers together to find the **sum** is called _____.

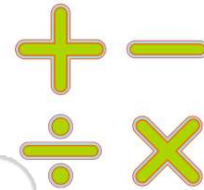

- A** addition
- B** subtraction
- C** division
- D** fractions

$$\begin{array}{r} 24 \\ 17 \\ \hline 10 \\ + 10 \\ \hline 24 \\ 17 \end{array}$$

(a)

The **answer** when you add numbers is called the _____.

- A** sun
- B** sum
- C** some
- D** s'more

(b)

This is a(n) _____ family.

$$\begin{array}{l} 4 + 2 = 6 \\ 2 + 4 = 6 \\ 6 - 2 = 4 \\ 6 - 4 = 2 \end{array}$$

- A** funny
- B** fact
- C** fair

(b)

Seven _____ three equals ten.

- A** minus
- B** minutes
- C** plus
- D** plans

(c)
