

Name _____ Class _____ Date _____

1 Mary spent this much time on homework this week: Monday - 3 hours; Tuesday - 2 hours; Wednesday - 4 hours; Thursday 3 hours; Friday - 0 hours. **This table correctly represents this data.**

- A true
- B false

Time Mary Spent on Homework

Day	M	T	W	TH	F
Hours Spent	3	2	4	3	0

2 Every year, the number of presents John receives for his birthday increases by one. **This table correctly represents this data.**

John's Birthday Presents

- A true
- B false

Year	2002	2003	2004
# of Presents	5	4	3

3 The equation, $y = x + 3$, is **correctly** represented by the table shown when x equals 8, 9, and 10.

- A true
- B false

X	Y
8	10
9	11

4 Given the table shown, **what age group buys the most football trading cards?**

- A 8 - 10
- B 11 - 13
- C 14 - 16
- D 17 - 19

2005 Football Cards Sold (in thousands)

Age Group	8-10	11-13	14-16	17-19

7 The refrigerator sales data is shown in the table below. Which month is **correctly** represented by the frequency table shown?

- A February
- B March
- C May
- D June

Refrigerators Sold

Month	J	F	M	A	M	J
Sue	8	7	11	5	12	13
Jim	6	9	4	10	6	4

correctly shows this data.

- A true
- B false

White	
Dark	
Orange	

9 One fall day, a class went outside to collect leaves. The students collected 8 red, 4 brown, 6 yellow, and 7 orange leaves. **This frequency table correctly shows this data.**

- A true
- B false

Leaves Collected

Color	Frequency
Red	
Brown	
Yellow	
Orange	

10 At a pancake breakfast, three kinds of drinks were served. The number of people who had each kind of drink were: coffee - 18, orange juice - 13, and tea - 9. **This frequency table correctly shows this data.**

- A true
- B false

Beverages Served

Drink	Frequency
Coffee	
Orange Juice	
Tea	

ANSWER KEY

Mary spent this much time on homework this week: Monday - 3 hours; Tuesday - 2 hours; Wednesday - 4 hours; Thursday 3 hours; Friday - 0 hours. **This table correctly represents this data.**

- A true
- B false

Time Mary Spent on Homework

Day	M	T	W	TH	F
Hours Spent	3	2	4	3	0

(a)

Every year, the number of presents John receives for his birthday increases by one. **This table correctly represents this data.**

- A true
- B false

John's Birthday Presents

Year	2002	2003	2004
