7 Air pressure affects the weather. What type of weather will **low pressure** bring?

- A evaporation
- B rainbows
- C air pressure
- D cloud colors

8 **High pressure** means it will most likely be \_\_\_\_\_.

- A cold air pressure
- B low air pressure
- C high air pressure
- D high air pressure

9 Air pressure affects the weather. What type of weather will **low pressure** bring?

- A clear skies
- B hot temperatures
- C sunny skies
- D clouds and often rain

10 **High pressure** means it will most likely be \_\_\_\_\_.

- A clear and sunny
- B cloudy
- C rainy
- D freezing cold

## ANSWER KEY

What is the **condition** of the air outside called?

- A environment
- B ecosystem
- C weather
- D atmosphere

(C)

**Weather** involves many things, such as clouds, temperature, water in the air, and the \_\_\_\_\_.

- A wind
- B grass
- C soil
- D trees

(a)

There are several **different types of clouds**, and each \_\_\_\_\_.

- A is the same shape
- B brings different weather
- C looks like the others
- D is the same size

(b)

A \_\_\_\_\_ is a person that **studies the weather**.

- A doctor
- B biologist
- C lawyer
- D meteorologist

(d)
