B elephant
C shark
D killer whale

9 The _____ is **one of the largest systems** in a human body and is, from mouth to anus, approximately 30 feet, or about 9 meters, in length.

- A urinary tract
- B respiratory system
- C digestive tract
- D endocrine system

10 There are over **600 muscles** in the human body. Which **organ** is considered a muscle in your body?

- A kidney
- B heart
- C liver
- D brain

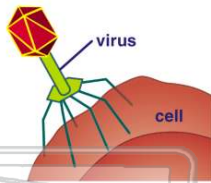

ANSWER KEY

Viruses use plant and animal _____ to reproduce and make more viruses; they **can not reproduce** on their own.

- A bodies
- B cells
- C hair
- D blood

(b)

There are **millions of different types of cells**, including cells that only function when **part of a large organism**, such as _____.

- A amoeba cells
- B bacteria cells
- C the cells of the human body
- D unicellular organisms

(c)

If you make a **mark** on the **trunk of a tree**, over time it will:

- A grow taller with the tree
- B grow higher off the ground
- C remain the same distance from the ground

(c)

Cotton clothes, many medicines, rope, string, rubber, dyes, and paint are all made from _____.

- A plants
- B soil
- C animals
- D minerals

(a)
