

Name \_\_\_\_\_ Class \_\_\_\_\_ Date \_\_\_\_\_

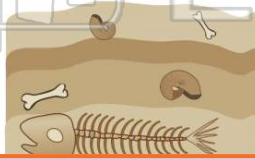

1 The **largest bone** in your body is your \_\_\_\_\_, which is your thigh bone.

- A femur
- B tibia
- C cranium
- D ulna

3 A scientist who **studies fossils** is called a \_\_\_\_\_.

- A biologist
- B zoologist
- C botanist
- D paleontologist

2 Organisms are **classified** by how many cells they are made of, whether their cell(s) have \_\_\_\_\_ or not, how they get their food, and even by how they move.

- A cytoplasm
- B a cell wall
- C a nucleus
- D a membrane

4 The \_\_\_\_\_ trees are among the **tallest** (can grow up to 85 m), **widest**, and **fastest growing** trees in the world.

- A Giant Fern
- B Giant Maple

- D California

- B 2 - 3
- C 1 - 2
- D 4 - 5

9 The **deepest spot** in all the oceans is called the **Mariana Trench** and is approximately 35,797 feet, or 10,911 meters, deep in the \_\_\_\_\_ Ocean.

- A Pacific
- B Atlantic
- C Indian
- D Southern

10 **Angel Falls** in \_\_\_\_\_ is the **tallest waterfall** in the world, dropping water from 3,212 feet (979 meters).

- A Venezuela
- B the United States
- C China
- D Australia

## ANSWER KEY

The **largest bone** in your body is your \_\_\_\_\_, which is your thigh bone.

- A femur
- B tibia
- C cranium
- D ulna

(a)

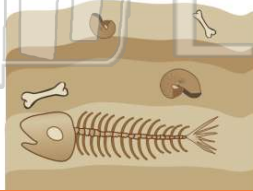

Organisms are **classified** by how many cells they are made of, whether their cell(s) have \_\_\_\_\_ or not, how they get their food, and even by how they move.

- A cytoplasm
- B a cell wall
- C a nucleus
- D a membrane

(c)

A scientist who **studies fossils** is called a \_\_\_\_\_.

- A biologist
- B zoologist
- C botanist
- D paleontologist

(d)

The \_\_\_\_\_ trees are among the **tallest** (can grow up to 85 m), **widest**, and **fastest growing trees** in the world.

(c)
