7

- A a stronger animal
- B a weaker animal
- C animals with no adaptations
- D its own self

10 _____ are **not learned**; they are **instincts** that animals are **born knowing** to do.

- A that it is not poisonous
- B that they should eat it
- C that it is a Monarch butterfly
- D that it would not hurt them

9

What **adaptation** does this animal use as a **defense** against anything that might harm it?

- A camouflage
- B mimicry
- C strong smell
- D excellent eye sight

- A Learned behaviors
- B Inherited behaviors
- C Taught behaviors
- D Watched behaviors

ANSWER KEY

_____ produces a **mirror image** if a line is drawn through it at one **certain place only**, such as top to bottom.

- A Shape symmetry
- B Color symmetry
- C Radial symmetry
- D Bilateral symmetry

(d)

An animal uses **camouflage** to **protect** itself from prey. What is **camouflage**?

- A becoming warm-blooded
- B having the appearance of one's surroundings
- C having ability to see in dark
- D being able to run fast

(b)

What is an **animal adaptation**?

- A an animal's habitat
- B an animal's environment
- C a trait that helps organisms survive
- D an animal's life cycle

(c)

Body adaptations are a type of physical adaptation.

True or false?

- A true
- B false

(a)
