A organs
B systems
C tissues
D processes

- B lung tissues
- C skin tissues
- D nerve tissues

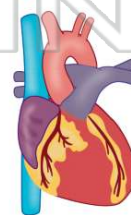

9 Brad touched a **hot** pan and pulled back quickly. Which cells **sent a message** which caused him to quickly remove his fingers from the **hot** pan?

- A muscle cells
- B bone cells
- C nerve cells
- D heart cells

10 Which of the following is a **group of tissues** that **work together**?

- A an organ
- B a tissue
- C a system
- D red blood cells

ANSWER KEY

Platelets are _____ that stop the bleeding of injured vessels. They **create clots** in the blood so that not too much blood is lost.

- A pieces of cells
- B white blood cells
- C red blood cells
- D large cells

(a)

Which of the following cells are cells that **branch out**, as seen in the picture below?

- A nerve cells
- B red blood cells
- C skin cells
- D white blood cells

(a)

Which type of cell is an example of **flat cells** that **overlap each other** in order to cover a wide area?

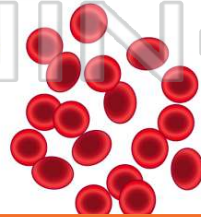

- A brain cells
- B nerve cells
- C red blood cells
- D skin cells

(d)

Red blood cells _____

- A attack foreign cells
- B fight off diseases
- C carry oxygen all over the body
- D decrease blood pressure

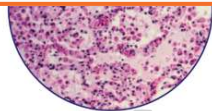

(c)
