- A Savanna
- B Sahara
- C Andes
- D Africana

10 What is the largest freshwater lake in North America?

- A Lake Ontario
- B Great Salt Lake
- C Lake Erie
- D Lake Superior

## ANSWER KEY

\_\_\_\_\_, Greenland, and Iceland are considered part of North America.

- A Ecuador
- B Canada
- C Greece
- D India

(b)

What mountains separate Europe from Asia?

- A Rockies
- B Andes
- C Ural
- D Appalachians

(c)

Some geographers consider Asia and Europe to be only one continent called \_\_\_\_\_.

- A America
- B Aropia
- C Eurasia
- D Pangaea

(c)

Some geologists have a theory that millions of years ago there was just one large continent, which slowly spread apart.

- A TRUE
- B FALSE

(a)

- A transmigration
- B hibernation
- C estimation
- D continental drift

(d)

Part of each continent spreads out into the oceans. We call these areas the \_\_\_\_\_.

- A community of land
- B continental shelf
- C continental islands
- D atolls

(b)

On which continent is Mt. Everest?

- A Asia
- B North America
- C South America
- D Africa

(a)

The shoreline of the Dead Sea is the lowest point of land in the world. Where is it?

- A Australia
- B Africa
- C Asia
- D Pacific Ocean

(c)

Africa has the largest desert in the world. Name that desert.

- A Savanna
- B Sahara
- C Andes
- D Africana

(b)

What is the largest freshwater lake in North America?

- A Lake Ontario
- B Great Salt Lake
- C Lake Erie
- D Lake Superior

(d)
