11. Why do you think CD ONE has 15 songs while CD TWO has 14? \_\_\_\_\_

CDs are based on the total time of the songs not the number of songs.

12. Apart from a CD shop, list two other possible places where you could buy this CD.

On the Internet, direct from DJH Communications, from a book store, from a friend, from a second hand store.

13. Who do you think DJH Communications are?

The company that helped compile these songs, and made arrangements to distribute the CD.

14. Think of another title for this CD and write it down. \_\_\_\_\_

Answers will vary.

15. Most products you buy will have a BAR CODE. What do you think a BAR CODE is used for?

Bar codes are used to help identify the category and price of the product.

16. Write down three things that are the same and three things that are different about a rock music band and a symphony orchestra.

Same: both create and play music; have people playing different music; both are popular & people will want to hear their music played, etc. Different: rock bands usually have fewer
