$\qquad$ Class $\qquad$ Date $\qquad$
Round the decimals to the nearest integer. If a number is < 5 then round the number down, if it is $\geq \mathbf{5}$ then round the number up. Use the number lines to help answer the questions.

Mark 11.8 on the number line. Round 11.8 to the nearest integer.
Mark 12.4 on the number line. Round 12.4 to the nearest integer.
Mark 13.5 on the number line. Round 13.5 to the nearest integer.
$\qquad$

Mark 13.5 on th er.
$\qquad$
$\square$

Mark 22.3 on the number line. Round 22.3 to the nearest integer.

Mark 21.8 on the number line. Round 21.8 to the nearest integer. $\qquad$
Mark 22.9 on the number line. Round 22.9 to the nearest integer. $\qquad$
Mark 20.2 on the number line. Round 20.2 to the nearest integer. $\qquad$
$\qquad$ Class $\qquad$ Date $\qquad$
Round the decimals to the nearest integer. If a number is < 5 then round the number down, if it is $\geq \mathbf{5}$ then round the number up. Use the number lines to help answer the questions.

Mark 18.5 on the number line. Round 18.5 to the nearest integer.
Mark 17.4 on the number line. Round 17.4 to the nearest integer.
Mark 18.1 on the number line. Round 18.1 to the nearest integer.
$\qquad$
$\qquad$
$\square$

Mark 34.6 on the number line. Round 34.6 to the nearest integer. $\qquad$

Mark 51.5 on the number line. Round 51.5 to the nearest integer. $\qquad$ $\square$

Mark 52.9 on the number line. Round 52.9 to the nearest integer. $\qquad$
Mark 54.6 on the number line. Round 54.6 to the nearest integer. $\qquad$
$\qquad$ Class $\qquad$ Date $\qquad$
Round the decimals to the nearest integer. If a number is < 5 then round the number down, if it is $\geq \mathbf{5}$ then round the number up. Use the number lines to help answer the questions.

Mark 11.8 on the number line. Round 11.8 to the nearest integer. $\square$
Mark 12.4 on the number line. Round 12.4 to the nearest integer. $\qquad$
Mark 13.5 on the number line. Round 13.5 to the nearest integer.

Mark 22.3 on the number line. Round 22.3 to the nearest integer. $\qquad$ 22

Mark 21.8 on the number line. Round 21.8 to the nearest integer. $\qquad$ 22

Mark 22.9 on the number line. Round 22.9 to the nearest integer. $\qquad$
Mark 20.2 on the number line. Round 20.2 to the nearest integer. 20
$\qquad$ Class $\qquad$ Date $\qquad$
Round the decimals to the nearest integer. If a number is < 5 then round the number down, if it is $\geq \mathbf{5}$ then round the number up. Use the number lines to help answer the questions.

Mark 18.5 on the number line. Round 18.5 to the nearest integer. $\qquad$
Mark 17.4 on the number line. Round 17.4 to the nearest integer. $\qquad$
Mark 18.1 on the number line. Round 18.1 to the nearest integer.

Mark 34.6 on the number line. Round 34.6 to the nearest integer. $\qquad$ 35

Mark 51.5 on the number line. Round 51.5 to the nearest integer. $\square$
Mark 52.9 on the number line. Round 52.9 to the nearest integer. $\qquad$ 53

Mark 54.6 on the number line. Round 54.6 to the nearest integer. 55
