

Name _____ Class _____ Date _____

- Someone has messed up all the furniture in Crazy Charlie's classroom. Crazy Charlie knows that there were some four-legged chairs as well as some three-legged stools but he is not sure how many of each. He has counted all the legs and has found that there are 40 altogether. He knows there are at least 5 stools.

How many of each seat are in the classroom?.....

- Someone else has removed the names from the artwork at the back of the room. Crazy Charlie has no idea who did the art but some of the students have been able to help:

Name _____ Class _____ Date _____

- Someone has messed up all the furniture in Crazy Charlie's classroom. Crazy Charlie knows that there were some four-legged chairs as well as some three-legged stools but he is not sure how many of each. He has counted all the legs and has found that there are 40 altogether. He knows there are at least 5 stools.

How many of each seat are in the classroom? **8 stools and 4 chairs**

- Someone else has removed the names from the artwork at the back of the room. Crazy Charlie has no idea who did the art but some of the students have been able to help:

I hate weaving and

I think Ash's rug looks great!
