

STRUCTURAL ANALYSIS

What Is Structural Analysis?

In order to derive the **meanings** of words, it is helpful to analyze the **structure** of the words in our language:

- Is there a Latin or a Greek root word?
- Is the word a base word that can stand alone?
- Are there prefixes and suffixes added to the base word?
- What are the meanings of the affixes added to the base word?
- Is the word a shortened form of a longer word?

Examples:

- The word **cardiac** comes from the Greek root **cardi** that means heart.
- The word **cardinal** comes from the Latin root **cardinalis** that means field.
- The word **cardinal** comes from the Latin root **cardinalis** that means field.
- The word **cardinal** comes from the Latin root **cardinalis** that means field.
- Gyr
