

READING AND WRITING WHOLE NUMBERS

Writing Whole Numbers

Use a **comma** to separate each group of three digits.

Examples:

3, 107, 527

439,802

4,082

Reading Whole Numbers

Start at the number farthest to the LEFT.

Exa

Millions

Ones
4

You

Another Example:

Millions	Hundred thousands	Ten thousands	Thousands	Hundreds	Tens	Ones
3	1	4	7	5	2	6

You read the above number:

Three million, one hundred forty-seven thousand, five hundred twenty-six

NEVER use the word **AND** when reading or writing a whole number.

For example:

For the number 321:

We write: 321

We read: three hundred twenty-one

We **DO NOT** read: three hundred and twenty one
