

Numerical & Geometric Proportions

Math

Name _____ Class _____ Date _____

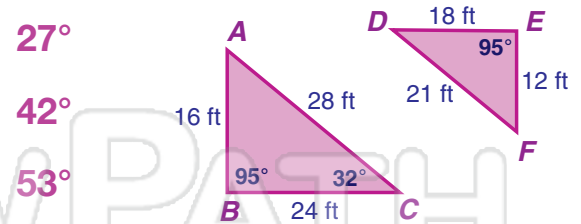

1 What is the **ratio** of **squares to circles** in the figure shown? Circle the answer.

- $\frac{3}{5}$
- $\frac{5}{3}$
- $\frac{5}{8}$

2 There are two animal hospitals. At hospital A, there are 8 dogs and 6 cats. At hospital B, there are 12 dogs and 14 cats. What is the **ratio of cats** at hospital A compared to hospital B?

6 The triangles shown are **similar**. What is the measure of $\angle DFE$? Circle it.

- 27°
- 42°
- 53°

7 Given the **similar** polygons shown, which **side corresponds to side DF**?

- EF
- BC

3
4 ft

5 Lindsey is building a model of her house. She wants to use the **ratio of 1 inch for every 5 feet**. If her house is 35 feet tall, which **proportion** should she use to get the **height** of her model? Check the answer.

- $1/35 = x/5$
- $1/5 = x/35$
- $x/5 = 35/1$
- $35/5 = 1/x$

10 Two flat screen TVs are **similar** as shown. What is the **length** of the larger TV?

- 19 in. 40 in.
- 31 in. 42 in.
